

MORRELL SANCTUARY SOCIETY

For Environmental Education since 1984

MOTHER NATURE'S RICHES

Gr. 3-7 Spring
Walk in - 2 hours \$60.

This program will focus on the concepts of Traditional Ecological Knowledge that contains certain plants that were once vitally important to the Coast Salish Peoples of British Columbia

NATURE WALK (Exploring the forest)

Gr. 3-12 All Year
Walk in - 2 hours \$60.

This program provides a study of our Coastal Douglas-fir Zone and the relationship between plants, animals and non-living factors.

POND DIPPERS

Gr. 2-4 Spring
Drive in - 1.5 hours \$55.
Walk in - 2 hours \$60.

Students will observe plants/animals by dipping and collecting specimens from the pond. Lifecycles, adaptations and identification will be discussed.

SEEDS & SPORES (Exploring change of season)

Gr. K-2 Fall
Drive in - 1.5 hours \$55.
Walk in - 2 hours \$60.

Students will be introduced to seasonal changes affecting plant lifecycles. Focus will be on the characteristics of seeds and spores found in our forest, and the interconnection of animals and plants in the environment.

WEBBED WANDERERS

Gr. K-2 Spring
Drive in - 1.5 hours \$55.

An introduction to our Beaver Pond community where students will investigate the lives of Beavers, Ducks and Frogs. This program concludes with the very popular "Frog dress-up"!

EXPLORING NATURE

Gr. K-2 All Year
Drive in - 1.5 hour \$55.

A nature walk, focusing on our local plant and animal life, and encourage the children to use their senses to explore this environment.

EXPLORING NATURE ON THE YE W LOOP

Pre-School All Year
Walk in - 1 hour \$45.

Provides a gentle introduction to forest life, and lifestyle traits of a number of forest animals through the use of hand puppets. A nature walk that will encourage the children to use their senses to explore the forest.

FOREST DETECTIVES

Gr. 1-3 All Year
Drive in - 1.5 hours-\$55.
Walk in - 2 hours -\$60.

Students will search for signs of biodiversity in Morrell's forest community utilizing observation, investigation and deduction skills.

FOREST ECOLOGY

Gr. 4-12 All Year
Walk in - 2 hours - \$60.

This program provides a study of various relationships within the forest community, focusing on the basic characteristics of a forest ecosystem.

INTRODUCTION TO LIFE IN THE POND

Gr. K-1 Spring
Drive in 1.5 hours - \$55.

This is a fun introduction to learn about the common creatures in our pond environment and how they survive.

MEET A TREE

Gr. 3-4 All Year
Walk in - 2 hours - \$60.

Morrell Sanctuary is a typical second growth forest. This program will show students how to identify 7 of the most common trees found in our Coastal Douglas biome.
